B2B Marketing Strategy & Growth Leader

Built Forbes' B2B demand engine from \$0 to eight figures in marketing-influenced revenue. Systems builder across acquisition, lifecycle, CDP, and sales enablement. Hands-on operator known for doing more with less.

SELECTED IMPACT

- Scaled Forbes' B2B demand generation function from **\$0 to eight figures** in marketing-influenced revenue (Salesforce contact-role attribution, conservatively tracked)
- Authored Forbes' centralized top-of-funnel strategy and audience intelligence framework, shifting the business from pageview-based to identity-based monetization through predictive LTV, third-party data enrichment, and cross-product lifecycle routing
- Productized third-party identity and intent data as a client-facing audience extension line: **\$240K booked and \$1.15M pitched** on the model in its first year
- Built executive QBR and monthly reporting frameworks tying campaign activity to pipeline influence, account performance, funnel velocity, and channel efficiency
- Deliver campaign work modeled at 149-206 specialist hours in ~71-74 hours as one AI-assisted operator (**~60% reduction**); three AI agents in development across lifecycle architecture, media planning, and owned concierge
- Built and scaled a **10,000+ attendee** audience for the 2018 Under 30 Summit; managed a **~\$500K budget** over 6 months across paid media, events, and international expansion

PROFESSIONAL EXPERIENCE

Forbes Media 2015 – Present

Executive Director, Demand Generation July 2023 – Present

Director, Demand Generation October 2021 – July 2023

Own B2B demand generation across advertising, sponsorships, research, insights, self-service advertising, and Forbes Vetted. Deliver pipeline and marketing-influenced revenue for a multi-business-unit portfolio with a lean team of two.

- Scaled marketing-influenced revenue from **\$0 to eight figures** over tenure, improving conversion rates ~2.5x through tighter capture, nurture, and routing
- Authored Forbes' **centralized top-of-funnel strategy** and audience intelligence framework, shifting the business from pageview-based to identity-based monetization through predictive LTV modeling, third-party data enrichment, and cross-product lifecycle routing

- Launched Forbes Connect as an **owned-media conversion layer** on an 18M+ profile BlueConic CDP, with behavioral segmentation, on-site dialogues, progressive profiling, and lifecycle routing into Pardot and Salesforce
- Set the vision and strategic framework behind Forbes' **DG Operating Playbook and AI Processes**, establishing lifecycle standards, prompt libraries, QA checklists, and governance across the team. Built custom ChatGPT Enterprise GPTs to accelerate campaign work
- Architected enterprise lead generation programs for partners including **T-Mobile (two-tier Signal product)**, **ServiceNow (integrated content, research, and retargeting partnership)**, and Indeed, with CRM-ready delivery and multi-channel orchestration
- Ship 10+ concurrent lifecycle programs across BDM, HNW, consumer, onboarding, progressive profiling, reengagement, Forbes 250, and DanAds self-service advertising
- Hired, developed, and managed a team of three. Performance-managed transitions, handled a layoff, and managed a specialty contractor running a high-touch marketer newsletter and awards submissions
- Built executive-ready QBR and monthly reporting frameworks tying campaign activity to pipeline influence, account performance, funnel velocity, and channel efficiency
- Stood up Forbes' Smartsheet marketing instance. Led vendor evaluations and onboardings for Stripo and Knak. Partnered with sales on speed-to-lead and built a one-click outreach messaging library that drove seller adoption and consistency

Senior Manager, Demand Generation January 2019 – October 2021

- Established Forbes' demand generation foundation across paid media, email, landing pages, nurture, and funnel reporting, creating leadership visibility into conversion and spend efficiency
- Owned Forbes' B2C lifecycle marketing. Drove activation, engagement, retention, and LTV. Built the site, activation plan, and feedback loop to predict incremental sales
- Self-taught HTML/CSS to ship custom email templates, landing pages, and tracking scripts when design/engineering bandwidth was unavailable

Manager, Audience Development May 2018 – December 2018

- Built and scaled an in-person audience of **10,000+ attendees** for the 2018 Under 30 Summit. Managed a team of three on audience growth and onsite execution
- Created and launched a startup hub from scratch, owning positioning, programming, sponsorship packaging, and experience strategy to drive incremental event revenue
- Managed a **~\$500K budget over 6 months** across paid media, events, and international expansion including a recorded radio spot and out-of-home buys in Nigeria and Ghana

Sales Planner February 2015 – May 2018

- Built a working understanding of how media is sold, how opportunities move through pipeline, and how marketing directly enables sales outcomes. Foundation for later demand generation work

Stedd LLC 2025 – Present

Founder

- Launched a revenue-recovery product for trades businesses and stood up the company end to end (banking, billing, compliance)
- Built a production n8n automation stack, an AI voice agent with a regression harness, and a live SMS demo responder
- Signed a paying pilot client and run outreach, product, and infrastructure as a solo operator
